

PETROSUPPLY LTD

WHO WE ARE?

Petrosupply LTD was founded in 2014 and since then expanded its business in oil exploration with trading and distribution from its offices in South America. The main focus of our core business is Europe where we have our roots and understand culture, infrastructure and economical development as no other. The strength of Info Trading lies both in its financial resources and in its team of high-level experts who combine their excellent knowledge of the industry with strong experience in the field and sharp business acumen. **Petrosupply LTD** is among the leading energy companies in South America and shall increase its significance with our international expansion.

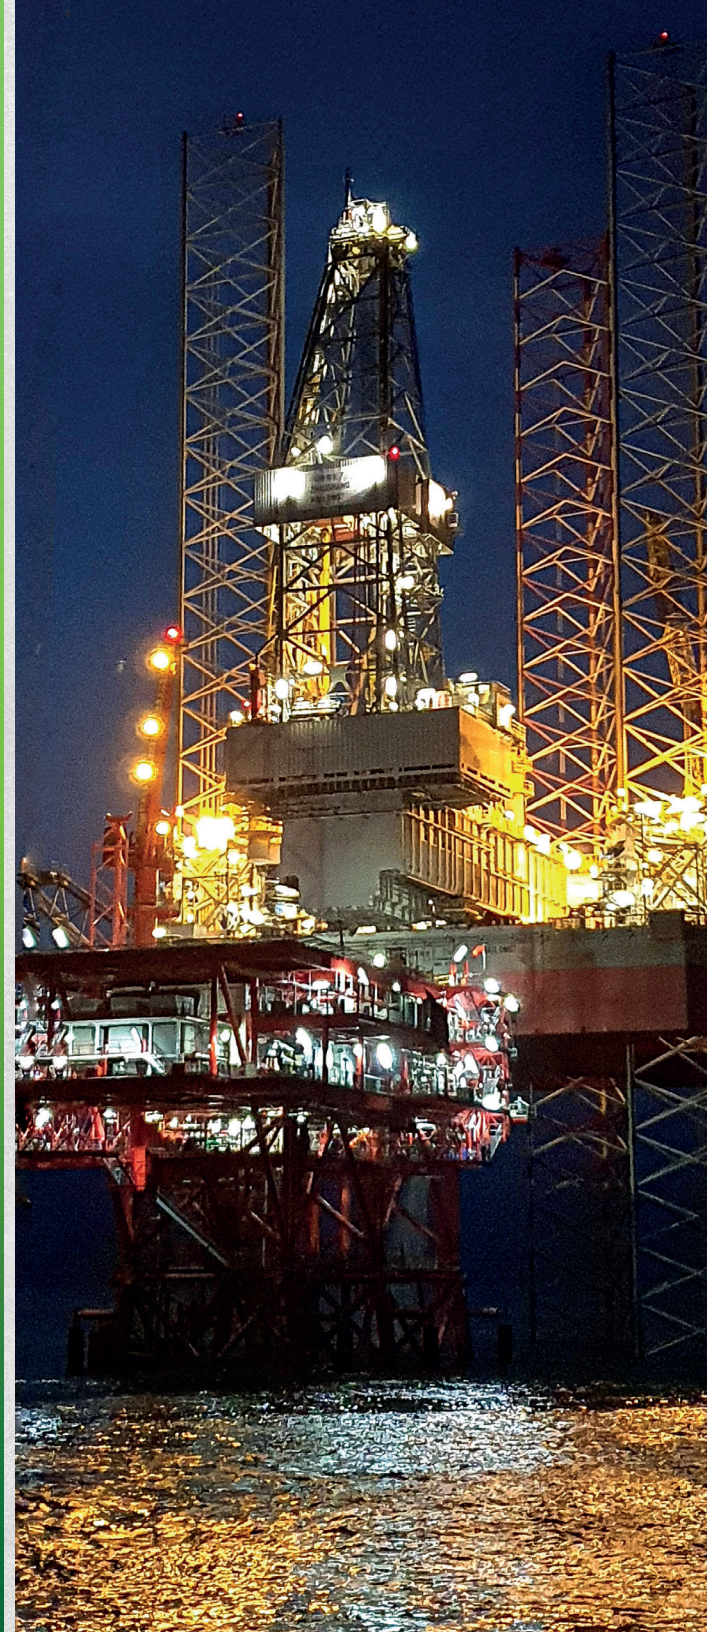

OUR BUSINESS

UPSTREAM

Petrosupply LTD Upstream division is one of South America's leading independent E&P players with a portfolio of various oil assets in basins across Venezuela. These assets are at various stages of development ranging from exploratory fields to mature producing fields with huge potential for positive returns. Our vision is to become a serious exploration & production company with strategic partners, operating on the American continent always with the commitment of environmental sustainability and safety.

MIDSTREAM

Petrosupply LTD midstream division consists of crude oil trading, refined products and petrochemical products. Our specialists have years of experience and offer a large international network of clients. Over the years, Info Trading has managed to expand its horizons, gaining a respectable reputation in delivering customers' requirements in high quality and in a cost effective manner.

OUR BUSINESS

DOWNTREAM

Our downstream activities are focused on the supply and distribution of refined products to various gas station chains. We are researching and considering investment options in logistics and infrastructure, anticipating increasing supply volumes and growing energy needs in Europe.

OUR STRENGTH
